# NORTH STATE POLITICS.

MOVEMENTS OF THE THIRD PARTY.

If Polk Would Only Holst His True Banner. Illness of Senstors German and Vance-Patents Issued.

WASHINGTON, D. C., March 22.-[Special.]-Some of the North Carolina Democrats here are becoming extremely anxious as to the political situation in that State. This feeling of apprehension exists among Democratic Congresamen from North Carolina. They say that if Polk would openly and boldly proclaim himself in favor of the Third party the Democrats would be able to immediately organize and array their party solidly against Polk, but the is pursuing an insidious policy. He declaims against the old parties and prates He declaims against the old parties and prates of the grievous burdens under which the people are suffering, but he does not offer or suggest any method of relief. He adroitly keeps alive the dissatisfaction with the Democracy. but does not offer any method of relief. The districts in which the most disaffection exists are those of Representatives Henderson, Bunn. Branch and Williams. Some of these members concede that there is doubt and uncertainty among their constituents. It is further stated to The Times correspondent that the Democratic element now following and supporting Governor Holt is too extreme: that they have already opened their batteries upon the Alliance, holding it to be the Third party. A Democratic member who was elected by support of the Alliance said to day. "These men are making a mistake in denouncing the Alliance as the Third party." He says that is a mistake which should be corrected, as the Alliance is not the Third party. PATENTS ISSUED.

Patents were issued to-day as follows:
Virginia William B. Bruce, Staunton, car
coupling: Charles C. Fields, Wallace's Switch,
assignee of one-half to A. D. Reynolds of
Bristol, plow John M. Holt, Manchester,
assignee of one-half to A. L. Wilkinson, Manchester, filter: Paxton Pollard, Norfolk, bolt

chester, filter: Paxton Pollard, North, Carelina—William F. Beasley, Oxford, two patents, mail bag and lock therefor; Laurens A. Fort, Raleigh, bird-trap Horace L. Freeman, Lexington, tobacco-hanger, Frank W. Carpenter, High Point, assignee of one-half to A. E. Devenish, of Oxford, tobacco pipe cleaner.

WASHINGTON NOTES, In Virginia the name of the postoffice Hurricane, Wise county, has been changed to Fernalda.

Captain William A. Burke, of Staunton, Va., has been appointed the representative of the National Democratic clubs from the Tenth congressional district in place of Colonel William L. Bumgardner, deceased. His duty is to effect and maintain organization of the Democratic clubs in that district.

Senator Vance has been ill for about ten days with a very severe sore throat. He was out to-day for the first time in more than a week.

Senator Gorman is still confined to his residence with lumbago. He is able to sit up, but not able to leave his residence. The single fact of the Senator's illness is proof sufficient that the published interview with him of the notorious "Gath" was a "fake"

## CLEVELAND AND THE SOUTH.

One of the "Plain People" Expresses His Opinion

ALLEGHANY COUNTY, VA., March 15 .- From 1865 to 1885 the Republicans, by practice, if not by open declaration, exhibited distrust of the Southerners and scarcely a Northern Democrat had the courage to insist upon our right to active participation in the affairs of the Government. It is true that Grant ap-pointed Mosby, Longstreet and some other ex-Confederates to office, but those instances were merely the exception that proved the rule. We could hardly say, and really could not feel, that we were in the Union, had not sectional legislation reminded us that we were not out of it. When Grover Cle veland became President, however, he gave us "the right hand of fellowship" and we were made equals with the rest. For his fair treatment of us he incurred the hostility of the Radicals. They cried that the country was going to the They cried that the country was going to the bad, as the "Southern brigadiers" had got control of the President. The result of President Cleveland's putting us on trial before the country is that no one now is foolish

enough to asperse our patriotism. We are acknowledged to be equals.

Can any Southerner, remembering all this and remembering the bitterness of our position before Cleveland became President, hestion before Cleveland became President, hes-itate or refuse to support him now? If such there be he justifies the criticism of a South-ern Republican made in my hearing recently: "If the South goes back on Cleveland it will hardly pay a Northern Democrat to meur the hostility of his section by doing them favors hereafter."

The allow passes (or distinguished from

The plain people (as distinguished from politicians, demagogues and place-hunters) are for Cleveland, and if any man by trickery or unfair means gets the nomination over Cleveland the plain people will not support him; they will stay at home on election day, Mark the prediction,

### Prince Edward County Fair.

Prince Edward County Fair.

Farmville, Va., March 22.—[Special.]—At a large and enthusiastic meeting of citizens held in the court-house last night for the purpose of considering the propriety of holding a county fair next fall. Hon. R. M. Burton was elected chairman and Mr. J. L. Wilson, secretary. Appropriate speeches were made, and after the speeches the vote was taken and it was unanimously carried to hold a fair here this fail. It was thought that the remaining five hundred dollars of the guarantee fund would be quickly subscribed. The Farmville Silver Band was in attendance and discoursed some delightful music, Incidentally a collection was taken for the band and a sum off about \$75 was raised to assist in paying of its indebtedness of about \$100. The "Destrict Skule" will also be requested to give a benefit performance for the band.

### A Schooner Abandoned.

A Schooner Abandoned.

Nonroux, Va., March 22.—[Special.]—The schooner Bertram L. Townsend, Captain John C. Wilbank, bound from Philadelphia to Matanzas. Cuba, encountered bad weather and gales from date of sailing, lost her rudder, sprung aleak and became unmanageable. She was abandoned on the 17th instant in latitude 35.10, longitude 73.30. The captain and crew were taken on board the British sailing ship Linnie Burill, of Yarmouth, N. S., and landed at Old Point. They arrived here this afternoon and Captain Wilbank noted protest with Mr. H. L. Cannon.

Played Havoc in the Forests.

Saluda, Va., March 22.—[Special.]—This village has several times in the recent past been shocked by sudden deaths, but none more startling than that of Mr. A. H. Ward, who went to bed Saturday night apparently in usual health and awakened his wife about midnight only to see him expire in a few moments from supposed paralysis.

Early truck was seriously damaged by the recent cold spall, while the heavy sleet played havee in the forests.

THE HUSTLING HILL.

Governor Peck Says that the People Are Against Him. "The people of the United States may countenance the active self-assertion of schem-

ing politicians to capture the small offices,

ing politicians to capture the small offices, but they draw the line on the presidency and they will draw the line on Hill," said Governor George W. Peck, of Wisconsin, at the Anditorium Hotel in Chicago Saturday.

"The people will stand a good deal, but they won't to use a homely expression let politicians monkey with the presidency. It is altogether too exalted an office to be the prey of tricksters and schemers. The people will soon enough find the man they want for the presidency, and if Hill had been that man he would have been sought for. No man, in my opinion, can be elected who hustles like a ward politician for the great office of President. There is too much dignity in it, it is too exalted a position to be thus sought for."

The Governor was very confident that the revulsion of feeling among Democrats has been so great that Hill may now be almost

The Governor was very confident that the revulsion of feeling among Democrats has been so great that Hill may now be almost safely considered out of the race.

"Cleveland will be nominated and elected," he declared. "There is now no doubt of his nomination, in my opinion. Hill has gone too far. Cleveland sounded the alarm the other day in his letter to General Brazg, and now the people will respond and do the rest by electing Cleveland. I have been through New York State recently, and I tell you the people are not for Hill. In the last six years there have been constant accessions from the Republican party to the Democratic party in New York State, and these newly-made Democrats say they cannot stand Hill, and will go back to their old party if he is nominated.

"The way the delegates were sent to Hill's convention was scandalous. Even if Tammany should go back on Cleveland, I believe the latter can be elected. I am confident we can carry Illinois, Wisconsin and Iowa. The people are with the Democratic party, with Cleveland as a candidate.

"What do you think of Hill's trip to the South?"
"I cappact see that it will help him any."

"I cannot see that it will help him any." Regarding the Wisconsin delegation to the National Convention, the Governor said it would undoubtedly be for Cleveland, although there might be a few delegates favorable to the nomination of a Western candidate.

OFERHAULING THE ALDERMEN. Passage of Many Ordinances in Chicago to Be Investigated.

CHICAGO, March 21.—The investigation into "boodleism" by the grand jury is not to be confined to the three ordinances which have confined to the three ordinances which have been so frequently mentioned in that connection. State's Attorney Longenecker said last night that the jury was following up any lead that might result in the conviction of a money giver or money taker.

Almong other ordinances the passage of which will be inquired into will be the lately-passed omnibus ordinance giving the Chicago City Railway Company the right to string overhead wires and run electric cars on most of the streets not already occupied.

The grand jury will also make a determined effort to sift the relations between the Gas Trust and the city authorities, particularly the circumstances attending the settlement made

circumstances attending the settlement made with the officers of the trust last June, by which the rate of \$1.20 a thousand was accepted. It is stated that the jury has information showing that certain aldermen maintain business relations with the trust and are constantly active on behalf of the big

The State's attorney also says that the investigation of the big four-mile tunnel (built out under the lake for the purpose of increasing the city's water supply will be reopened. He states that evidence has been placed in his hands showing years of municipal jugglery. Reasons will be given showing just why the aldermanic committee recently appointed to investigate the construction of this tunnel failed to prove evidence of fraud and wrong doing.

President Billings, of the Gas Trust, who is

President Billings, of the Gas Trust, who is at Hot Springs, says, in an interview, that there is nothing in the story that the "boodling" aldermen offered to kill the economic gas ordinance for \$150,000. He states that when the ordinance was pending one or two Aldermen asked him what he wanted done with it, but his reply was that he did not care whether it was passed or not.

A Stockton (Cal.) dispatch says that Mrs. Sarah Althea Terry, since her incarceration in the asylum, has become very violent and leads her attendants a life of misery. One of her favorite methods of passing time is to lean against the wall and receive spirit mes-sages. The spirits order her to do all sorts of strange things, and their orders are implicitly obeyed. Refusing to conform to the asylum's rules and discipline, it was recently necessary to use some force with her, and she became so refractory that she has since been put in a straight jacket.

### Sarsaparilla

"Gentlemen: Fifteen years ago I had an attack of inflammatory rheumatism, which was followed by eczema or salt rheum, breaking out on my right leg. The humor spread all over my legs, back and arms,

A Foul Mass of Sores,

swollen and itching terribly, causing intense pain if the skin was broken by scratching, and discharging constantly. It is impossible to describe my suffering in those years of agony and torture. I spent

in futile efforts to get well, and was discouraged and ready to die. At this time I was unable to lie down in bed, had to sit up all the time, and was unable to walk without crutches. I had to hold my arms away from my body, and had to have my arms, back and legs bandaged by my faithful wife twice a day. Finally a friend who was visiting at our house, urged me to take Hood's Sarsaparilla. I began by taking haif a teaspoonful. My

Stomach Was All Out of Order

But the medicine soon corrected this, and in six weeks I could see a change in the condition of the humor which nearly covered my body. It was driven to the surface by the Sarsaparilla, the sores soon healed, and the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months; and since that time, nearly two years, I have worn no bandages whatever and my legs and arms are sound and well.
